

Market leading purchasing law

## Business law

With the right legal skills you can enter into safe contracts with your suppliers and “sleep well”.

This course focuses on contract law, purchasing law and interest law, three legal areas which are especially important for everyone who does business. You will get current knowledge to enable you to enter into correct and safe contracts.

### Business law

- Avoid costly disputes and conflicts
- Purchasing law, Contract law, Interest law
- Learn to make safe and legally correct purchases.

## Business law

You will learn what the responsibilities are for sellers and purchasers in connection with business transactions. After completing the course, your work will likely be both more effective and more fun, and above all, you will reduce the risk of possible costly disputes and conflicts. (Purchasing law is included in the certification program in purchasing, CISilf®, but is also given as an independent course.)

### Contents

- Contract law – entering into contracts, soliciting tender offers, acceptance, power of attorney, etc.
- Purchasing law – deliveries, delays, defective goods, claims, damages, etc.
- Interest law – payment conditions and late payment interest penalties

### Purpose and educational objectives

You will be able to carry out professional purchasing and negotiations with greater skill and increased self-confidence through enhanced and updated knowledge in business law.

### Who should attend?

People who work as purchasers or sellers, and people who have a fundamental education in purchasing/logistics plus everyone else who deals with contracts and business and wants to gain more in-depth business law knowledge.
